

martex® *Ultra Touch Suites*

The Martex® Ultra Touch Suites Coverlet is a sleek, lightweight bedding option featuring a subtle herringbone pattern that adds a refined touch without overwhelming the aesthetic of your room. Made from soft, brushed microfiber (90 gsm) on both the face and back, it offers the perfect weight for year-round comfort, suitable for all climates and seasons.

Its eco-friendly design features EcoPure® polyester fiberfill, which is crafted from recycled water bottles, making it a sustainable choice for environmentally conscious consumers. The microfiber's quick-drying properties further enhance its practicality.

To top it off, the coverlet boasts a self-binding finish on all sides, ensuring a neat, polished look whether you choose to tuck it in or let it drape. It combines style, comfort, and sustainability in one elegant package.
