Ultra Touch Suites

The Martex® Ultra Touch Suites Coverlet is a lightweight bedding layer with a subtle herringbone pattern for a clean, refined look. Made from soft 90 gsm brushed microfiber on both sides, it delivers year-round comfort across all climates.

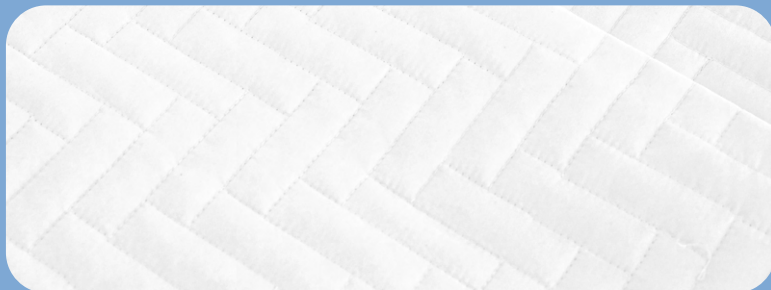

It features EcoPure® recycled polyester fiberfill made from water bottles, offering a sustainable edge, along with quick-drying performance for added practicality.

Finished with self-binding on all sides, it maintains a polished appearance whether tucked or draped, blending comfort, durability, and eco-conscious design.
